UW Lectures in the Bay Area

Using Big Data to Improve Health at the Local Level

Dr. Cristian C. Baeza, Institute for Health Metrics and Evaluation

Wednesday, March 4, 2015 | 6 p.m. reception / 7 p.m. program

Using Big Data to Improve Health at the Local Level

Dr. Cristian C. Baeza, Institute for Health Metrics and Evaluation

Millions of lives are cut short or limited by disease and injury every year. Being able to pinpoint the major drivers of poor health is essential. Through leading-edge science, big data and collaboration with experts worldwide, the Institute for Health Metrics and Evaluation (IHME) provides a comprehensive, detailed picture of the world's pressing health problems.

Join fellow California Huskies to hear from Dr. Cristian C. Baeza, director of Health System Solutions and professor of global health for IHME, about the importance of IHME mapping of Burden of Disease for Global Health Aid and about his extensive work on global health systems reform, advising more than 30 governments toward evidence-based health policy decision-making.

When: Wednesday, March 4, 2015
6 p.m. reception | 7 p.m. program

Where: Fremont Hills Country Club
12889 Viscaino Place, Los Altos Hills, CA 94022

Cost: **\$30** for UWAA members, current students and recent graduates*
\$35 for general admission
**Undergraduates from the classes of 2010-2014*
